## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to an apparatus for moving a body.

Group II, claim(s) 12-19, drawn to a body adjusting method.

Group III, claim(s) 20-43, drawn to a bed.

Group IV, claim(s) 44-66, drawn to a bed driving method.

Group V, claim(s) 67-77, drawn to a bed operating apparatus.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group II lacks the apparatus structure as recited in Group I; Group III lacks the particular axes as recited in Groups I and II; Group IV lacks the particular bed structure as recited in Group III; and Group V lacks the method steps as recited in Group IV, the particular bed structure as recited in Group III, and the respective axes as recited in Groups I and II.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

SPECIES 1	FIGURES 1-10
SPECIES 2	FIGURE 11
SPECIES 3	FIGURE 12
SPECIES 4	FIGURE 13
SPECIES 5	FIGURE 14
SPECIES 6	FIGURE 15
SPECIES 7	FIGURE 16
SPECIES 8	FIGURES 17 & 18
SPECIES 9	FIGURE 19
SPECIES 10	FIGURE 20
SPECIES 11	FIGURES 21 & 22
SPECIES 12	FIGURES 23 & 24
SPECIES 13	FIGURES 25-41.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 3673

the election, applicant must indicate which are readable upon the elected species. MPEP

§ 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

Groups I & II are deemed to correspond to Species 1 & 2; Groups III & IV are deemed to correspond to Species 3-9; and Group V is deemed to correspond to Species 13.

The following claim(s) are generic: NONE.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Species 1 & 2 are both different types of apparatuses which lack the various embodiments of driving control configurations as respectively shown in Species 3-13.

6. A telephone call was made to Stephen G. Adrian on September 30, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
